

FY2010 THUD

OST: Transportation Planning, Research and Development

Advanced Vehicle (Aerodynamic and NVH) Modeling and Validation, Mississippi State University, Starkville, MS, \$1,500,000, For Mississippi State study of advanced vehicle design and modeling validation, This project will help prepare our nation for our future transportation needs.

Assessment of Critical Transportation Infrastructure, Jackson State University, Jackson, MS, \$2,800,000, For research and development of advanced analytical capabilities, This project will help prepare our nation for our future transportation needs.

University Transportation Center, The University of Mississippi, Oxford, MS, \$500,000, For construction of University of Mississippi Transportation Center, This project will help prepare our nation for our future transportation needs.

FAA

FAA: Facilities and Equipment

Greenville Airport Security Upgrades, City of Greenville, \$1,000,000, For security upgrades at Greenville Municipal Airport, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

FAA: Airport Improvement Program

Construct Taxiway Juliet, Gulfport-Biloxi International Airport, Gulfport-Biloxi Reg. Airport Authority, Gulfport, MS, \$19,485,227, For construction of new parallel taxiway along runway 14/32, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Design Airfield Drainage Project, Gulfport-Biloxi International Airport, Gulfport-Biloxi Reg. Airport Authority, Gulfport, MS, \$475,000, For Gulfport-Biloxi airfield drainage improvements, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Design Taxiway Juliet, Gulfport-Biloxi International Airport, Gulfport-Biloxi Reg. Airport Authority, Gulfport, MS, \$893,000, For new engineering design of new parallel taxiway, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Golden Triangle Regional Airport Runway Extension, Golden Triangle Regional Airport, Columbus, MS, \$7,575,000, For Golden Triangle Regional Airport runway extension, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Greenville Airport Inner Runway Rehabilitation, City of Greenville, MS, \$3,000,000, For runway re-surfacing at Greenville Municipal Airport. , This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Hawkins Field Runway/Taxiway Improvements, Jackson Municipal Airport Authority, Jackson, MS, \$10,000,000, For capital improvements to Hawkins Field runway and taxiway, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Land Acquisition (Department of Corrections), Gulfport-Biloxi International Airport, Gulfport-Biloxi Reg. Airport Authority, Gulfport, MS, \$11,400,000, For future land acquisition for runway 18/36 expansion, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Noise Abatement Program, Gulfport-Biloxi International Airport, Gulfport-Biloxi Reg. Airport Authority, Gulfport, MS, \$4,750,000, For Gulfport-Biloxi Airport noise abatement measures, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Perimeter Road, Gulfport-Biloxi International Airport, Gulfport-Biloxi Reg. Airport Authority, Gulfport, MS, \$5,251,985, For Gulfport-Biloxi Airport perimeter road construction, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Perimeter Road, Gulfport-Biloxi International Airport, Gulfport-Biloxi Reg. Airport Authority, Gulfport, MS, \$2,007,892, For construction of perimeter road extension to new cargo and general aviation area, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Philadelphia Municipal Airport Localizer for an ILS, City of Philadelphia, MS, \$750,000, For planning and construction of an Instrument Landing System, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Runway, Taxiway and Infrastructure Improvement, City Of Vicksburg, MS, \$3,980,000, To enhance airport safety and improve airport infrastructure, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Security system upgrade at Jackson-Evers International Airport, Jackson Municipal Airport Authority, Jackson, MS, \$5,000,000, For security system upgrades at Jackson-Evers International Airport, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Tunica Airport Commercial Terminal, Tunica County Airport Commission, Tunica, MS, \$4,750,000, For construction of new Tunica County Airport commercial terminal and jet bridge, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

Tupelo Regional Airport Cargo Ramp, Tupelo Regional Airport, Tupelo, MS, \$1,500,000, To construct a cargo ramp at Tupelo Regional Airport, This project will help improve the safety and efficiency of our national air travel network and help ensure freedom of movement for people and commerce.

FHWA

FHWA: Transportation, Community and System Preservation

Elementary School Sidewalks and Grandview Drive Bridge, City of Laurel, MS, \$1,100,000, For city of Laurel sidewalk construction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Greenville Targeted Critical Street revitalization Project, City of Greenville, MS, \$2,000,000, For city of Greenville street repair and upgrades, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Hattiesburg Longleaf Trace Rails To Trails-Phase II, City of Hattiesburg, MS, \$1,000,000, For construction of city of Hattiesburg outdoor hiking and biking trail, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Hinds County Parking Garage, Hinds County Board of Supervisors, Jackson, MS, \$14,000,000, For construction of Hinds County court building parking garage, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Jonestown Bypass, Coahoma County Board of Supervisors, Clarksdale, MS, \$1,374,750, For Jonestown Bypass improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Memorial Boulevard, City of Picayune, MS, \$5,000,000, For city of Picayune road construction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Municipal Road Rehabilitation, Town of Wesson, MS, \$923,000, For town of Wesson road upgrades and reconstruction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Munsford Drive and Bratton Road Improvements, City of New Albany, MS, \$5,200,000, For city of Albany road improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Neshoba County Road 452, Mississippi Band of Choctaw Indians, Choctaw, MS, \$250,000, For Neshoba County Road 452 improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Neshoba County Road 773, Mississippi Band of Choctaw Indians, Choctaw, MS, \$250,000, For Neshoba County Road 773 improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

New Interchange and Service Road at Anchor Lake, Pearl River County, MS, \$2,000,000, For Pearl River County road construction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Northside Drive Corridor, City of Clinton, MS, \$3,000,000, For Northside Drive Corridor improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Pearl River Community College Planning of Road Safety Improvements, Pearl River Community College, Poplarville, MS, \$480,000, For Pearl River Community College road and safety planning, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Sidewalk and Curb installation and improvements, Town of Sumrall, MS, \$300,000, For sidewalk and curb installation and improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Street and Road Improvements, Town of Sumrall, MS, \$1,200,000, For town of Sumrall road repairs and upgrades, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

FHWA: Federal Lands

Forest Road Upgrade, Bay Springs, MS, \$2,600,000, Jasper County Board of Supervisors, For County Road 23 upgrades and reconstruction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

FHWA: Appalachian Development Highway System

State Route 6 / US Highway 278 from Clarksdale to East of Batesville, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For MDOT highway construction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

FHWA: Delta Regional Transportation Development Program

Port Itawamba Tri-Modal Improvements, Itawamba County, MS, \$823,680, For tri-modal improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Repair of County Roads, Boliver County, MS, \$2,500,000, For Boliver County road upgrades and repairs, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

State Route 6 - Corridor V, MS Dept. of Transportation, Tupelo, MS, \$2,000,000, For State Route 6 widening, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

FHWA: Surface Transportation Priorities

Airport Parkway, Airport Parkway Commission, Flowood, MS, \$21,000,000, For construction of an Airport Parkway, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Basic Infrastructure Restoration and Development, Mississippi State University, MS, \$3,000,000, For Mississippi State University infrastructure improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Beulah Grove Road Improvements, Pontotoc County, MS, \$1,200,000, For Pontotoc County road improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Bridge on Lamey Bridge Road, City of D'Iberville, MS, \$1,000,000, For City of D'Iberville bridge replacement, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Bridge Replacement / Improvement Program, Hinds County Board of Supervisors, MS, \$9,050,000, For construction of a interstate standard overpass, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Byram-Clinton/Norrell Corridor, Hinds County Board of Supervisors, Jackson, MS, \$5,000,000, For construction of the Byram-Clinton/Norrell Corridor, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Calhoun County Road 306 Improvements, Calhoun County, MS, \$3,900,000, For Calhoun County Road 306 improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Calhoun Station Parkway Phase II, Madison County Board of Supervisors, MS, \$6,000,000, For Calhoun Station Parkway improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Capitol Street Renaissance Project, Downtown Jackson Partners, Jackson, MS, \$5,150,000, For City of Jackson revitalization project, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

City of Jackson West County Line Road Improvements, City of Jackson, MS, \$5,000,000, For city of Jackson road construction and railroad crossing safety upgrades, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

City of Petal Commercial Corridor Transportation Improvements, City of Petal, MS, \$5,000,000, For city of Petal road construction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Coast-to-Capital Connector, MS, 2,000,000, For Coast-to-Capital Connector construction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Connector Roads to I-55 Interchange, Mississippi Dept. of Transportation, Jackson, MS, \$5,000,000, City of Ridgeland, MS, For I-55 interchange connector roads improvements

Dedaux Road Widening Phase 2, City of Gulfport, MS, \$5,000,000, For Dedaux Road widening, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Earl Frye Boulevard Improvements, City of Amory, MS, \$6,000,000, For Earl Frye Boulevard improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

East Brandon By-Pass, City of Brandon, MS, \$26,150,000, For East Brandon By-Pass construction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

East Metropolitan Corridor, East Metropolitan Corridor Commission, Flowood, MS, \$5,000,000, For construction of the East Metropolitan Corridor, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Franklin County Asphalt Project, Franklin County Board of Supervisors, MS, \$500,000, For Franklin County road upgrades and repairs, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Gateway Corridor - University of Mississippi Research Park, The University of Mississippi, Oxford, MS, \$10,000,000, For University of Mississippi road construction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Gluckstadt Road and Interchange, Madison County Board of Supervisors, MS, \$13,200,000, For Gluckstadt Road improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Greenville Bypass, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For construction of US 82 Greenville Bypass, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Hinds County Arterial and Collector Improvement Program, Hinds County Board of Supervisors, MS, \$22,500,000, For Hinds County road upgrades and repairs, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Holly Springs Road Project, DeSoto County Board of Supervisors, MS, \$6,000,000, For DeSoto County bridge replacement, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Hoy Road, Madison County Board of Supervisors, MS, \$30,000,000, For Hoy Road Improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Hwy. 28-Dentville-Jack-Hwy. 18 Road, Copiah County Board of Supervisors, MS, \$3,600,000, For Copiah County road upgrades and repairs, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

I20 South Frontage Road, Vicksburg Warren Economic Development Foundation, MS, \$7,000,000, For I-20 South Frontage Road improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

I-55 / I-69 Corridor, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For improvements to the I-55/69 corridor, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Interstate 10, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For Interstate 10 improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Interstate 20 from the Mississippi River East to the US Highway 61 North Interchange, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For Interstate 20 improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

JCJC Boulevard Project, Jones County Junior College, Ellisville, MS, \$5,500,000, For Jones County Junior College Boulevard improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Lake Harbour Extention, City of Ridgeland, MS, \$5,000,000, For Lake Harbour extension construction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Lake Harbour Road, Madison County Board of Supervisors, \$16,000,000, MS, For Lake Harbour Road improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Northeast Madison County Economic Enhancement Study, Madison County Board of Supervisors, MS, \$3,000,000, For Madison County economic growth study, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Oktibbeha County Southern Bypass, Oktibbeha County Board of Supervisors, MS, \$2,000,000, For Oktibbeha County highway route planning studies, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Oktoc Road Leveling and Resurfacing, Oktibbeha County Board of Supervisors, MS, \$1,100,000, For Oktibbeha County road upgrades and repairs, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Old Canton Road Improvements, Madison County Board of Supervisors, MS, \$10,000,000, For Old Canton Road improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Pascagoula Street, MS, City of Pascagoula, MS, \$1,550,000, For Pascagoula Street improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Phase I Overpass Environmental Study, City of Hattiesburg, MS, \$945,000, For completion of Hattiesburg city road project environmental study, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Pike County Bridge Replacement, Pike County Board of Supervisors, MS, \$6,795,000, For Pike County bridge replacement, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Pike County Multi-purpose building, Pike County Board of Supervisors, MS, \$15,000,000, For construction of a Pike County Multi-Purpose Building, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Repave Big Ridge Road, City of D'Iberville, MS, \$250,000, For Big Ridge Road improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Repave D'Iberville Blvd, City of D'Iberville, MS, \$700,000, For D'Iberville Boulevard improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Repave Gorenflo Ave, City of D'Iberville, MS, \$750,000, For Gorenflo Avenue improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Repave Quave Road, City of D'Iberville, MS, \$150,000, For Quave Road improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Reunion Interchange, Madison County Board of Supervisors, MS, \$34,000,000, For Reunion Interchange construction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Reunion Parkway Phase III, Madison County Board of Supervisors, MS, \$13,200,000, For Reunion Parkway constructions, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Roadway Lighting and Safety Project, Hattiesburg, City of Hattiesburg, MS, \$7,500,000, For city of Hattiesburg highway lighting and safety project, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Rogers Road Improvements, Quitman County Board of Supervisors, MS, \$458,000, For Rogers Road improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Stack IV, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For Stack IV improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

State Route 15 from Laurel to Bay Springs, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For State Route 15 from Laurel to Bay Springs improvements, This project will help

improve our nation's transportation infrastructure connecting our communities for travel and commerce.

State Route 15 from Pontotoc County to Falkner, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For State Route 15 improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

State Route 24/48, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For State Route 24/48 improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

State Route 25, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For State Route 25 improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

State Route 603/43 at Kiln, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For State Route 603/43 improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

State Route 7 from the Intersection of State Route 9W to State Route 6 / US Highway 278, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For State Route 7 improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Statewide Interstate Bridge Rehabilitation, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For MDOT statewide interstate bridge repair and rehabilitation, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Sunbelt Industrial Park and Highway 61 (future I-69) Interchange, County Board of Supervisors, MS, \$2,193,825, Coahoma For construction of new overpass, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Tibbee Road, Clay County Board of Supervisors, MS, \$1,700,000, For Clay County road upgrades and repairs, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Tupelo Major Thoroughfare Northern Loop, City of Tupelo, MS, \$3,000,000, For city of Tupelo road repairs and bridge construction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Urban Collector Road Project, Jackson County Board of Supervisors, MS, \$2,500,000, For Jackson County road construction, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

US 78 Upgrade to Interstate Standards, Mississippi Dept. of Transportation, Jackson, MS, \$2,000,000, For US 78 improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Waterway Drive Improvements, City of Amory, MS, \$2,000,000, For Waterway Drive improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

Wisconsin-Frontage Connection Road, City Of Vicksburg, MS, \$1,000,000, For Wisconsin-Frontage Connection Road improvements, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce.

FRA

FRA: Rail-Highway Crossing Hazard Eliminations

Railroad Crossings Improvements, Hinds County Board of Supervisors, Jackson, MS, \$3,325,000, for Hinds County railroad crossing safety improvements, This project will help improve our nation's rail infrastructure.

FRA: Rail Line Relocation and Improvement

Great River Railroad Rehabilitation Project, Bolivar County Supervisors, Cleveland, MS, \$5,408,060, for Bolivar County railroad restoration, This project will help improve our nation's rail infrastructure helping to get more freight off our highways thereby improving the efficiency of our transportation system.

Port Railroad Improvements, Monroe County, MS, \$4,400,000, for rail improvements, This project will help improve our nation's rail infrastructure helping to get more freight off our highways thereby improving the efficiency of our transportation system.

Quitman County Amtrak Station, Quitman County Board of Supervisors, MS, \$281,000, for construction of Quitman County Amtrak train platform and passenger pavillion, This project will help improve our nation's rail infrastructure helping to get more freight off our highways thereby improving the efficiency of our transportation system.

Railroad Improvements & Swan Lake Switching Terminal, Coahoma County Board of Supervisors, MS, \$3,206,258, for safety upgrades to Coahoma County rail crossings and rail improvements, This project will help improve our nation's rail infrastructure helping to get more freight off our highways thereby improving the efficiency of our transportation system.

Rosedale Railroad Revitalization, Bolivar County Board of Supervisors, Cleveland, MS, \$25,000,000, for repair and reconstruction of Rosedale railroad line, This project will help

improve our nation's rail infrastructure helping to get more freight off our highways thereby improving the efficiency of our transportation system.

FTA

FTA: Bus and Bus Facilities

Harrison County Multimodal Facilities, Coast Transit Authority, Gulfport, MS MS, \$11,097,000, for construction of city of Gulfport multimodal facilities, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce, This project will help enhance our transit infrastructure and improve the efficiency of our transportation system.

JATRAN Fleet Replacement, Bus Security Enhancement, City of Jackson, MS, \$1,000,000, or purchase of replacement public buses, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce, This project will help enhance our transit infrastructure and improve the efficiency of our transportation system.

Light Rail Feasibility Study, City of Jackson, MS, \$250,000, for city of Jackson rail feasibility study, This project will help improve our nation's transportation infrastructure connecting our communities for travel and commerce, This project will help enhance our transit infrastructure and improve the efficiency of our transportation system.
